

## **ADR**

### **Tip of the Month**

---

---

#### **Amphetamines**

#### **Suicidal thoughts and behaviours**

- Cases of suicidality have been reported with the use of amphetamine products for the treatment of ADHD.
- The Canadian prescribing information for all amphetamine products will be updated to include rare cases of suicidality reported in patients taking amphetamines.
- Physicians should monitor patients prescribed amphetamine products for signs of suicidality.
