

Survey

CPSP resource use

The CPSP is evaluating the use of the supplementary resources we mail to participants.

- The “ADR Tip of the Month” is an educational tool on adverse drug reaction topics that is mailed with your report form.
- Quarterly updates summarize reported cases by region and are sent every three months.
- Educational resource articles are sent to you biannually. The most recent articles were sent in January 2011 on *Iron-deficiency anemia in children* and *Kidney disease in children with type 2 diabetes*.

Your contribution is greatly appreciated.

1. How frequently do you read the following resources from the CPSP?

	Never	Seldom	Sometimes	Always	Don't know / Do not recall
ADR Tips	—	—	—	—	—
Quarterly updates	—	—	—	—	—
Educational resource articles	—	—	—	—	—

2. In general, how helpful are the following materials to you?

	No help at all	Slightly helpful	Fairly helpful	Very helpful	Don't know / Do not recall
ADR Tips	—	—	—	—	—
Quarterly updates	—	—	—	—	—
Educational resource articles	—	—	—	—	—

3. Do you share these resources with others? If so, how? (Check all that apply.)

	ADR Tips	Quarterly updates	Educational resources articles
Post to a bulletin board	—	—	—
Circulate the hard copy to colleagues	—	—	—
Present the information to students	—	—	—
Other: _____	—	—	—

4. How can we make these resources more useful to you?

Please return this survey with your monthly reporting form.

Thank you for your participation.
